

Objective:

To develop a Bio-Data / Curriculum Vitae (CV) using microsoft Word including table for qualification profile, header, footer and page number.

1.1 Introduction to mS Word

mS Word or microsoft Word is a graphical user interface (GUI) based word processing software developed by microsoft Corporation. It is one of the most widely used software applications for creating, editing and formatting documents. It allows users to make professional documents like letters, reports, memos, resumes, etc. mS Word has many helpful tools such as grammar checker, word count, speech recognition, tables, templates, and so on.

1.2 Features of mS Word

- Home: Contains text formatting options such as font, font size, bold, italic, underline, paragraph alignment, bulleting and numbering.
- Insert: Used to insert tables, images, shapes, SmartArt, charts, headers, footers, page numbers etc.
- Design: Provides document themes, styles, watermarks, page color and borders.
- Layout: Controls page margins, orientation, size, columns

and line spacing.

- References: For table of contents, footnotes, citations, bibliography and index.
- Mailings: For mail merge, envelopes and labels.
- Review: For spell check, grammar check, word count and track changes.
- View: For different document views like Read mode, Print Layout, Web Layout.

1.3 Steps to Open MS Word

1. Click on the Start button (Windows logo) on the bottom left of the screen.
2. Scroll down the application list and find 'Microsoft Office' folder.
3. Click on 'Word' to launch the application.
4. A splash screen will appear and then the Word home interface opens.
5. Select 'Blank Document' to open a new empty document.
